Submitted for orders. The same proposal to appoint a committee, made by the Director H.C., was considered by Govt. when before issuing the orders referred to; and these orders provide (Please see para 5) that the Dr. of Agre., the Dr. of M.G., the Com. of Fds., & the chambers of commerce will cooperate with the Dr. of H.C.

25.4.20

2 In person. The Dr. does not give details & reasons made his own and no purpose for which they have been made.

This is quite another matter altogether

3 — Then does not appear to be any objection to the appointment of an Advisory Committee as proposed, if the Govt. considers such a body would be useful. The Dr. of Agriculture also suggested such a Committee at the Veg. Exhibition

Encl. No. nil

OFFICE OF THE
DIRECTOR OF INDUSTRIES AND COMMERCE, IN MYSORE.

Bangalore the 20th April 1923

FROM

P. G. D'SOUZA, ESQ., B.A., B.L.,
Director of Industries and Commerce in Mysore
Bangalore (India)

To

The Secretary to the Government of Mysore,
General Department,
Bangalore.

SIR,

With reference to Government Order No: 1773-8/PP. 43.22-9 dated 7th Oct 1922 regarding the arrangements to be made for the Mysore State participating in the British Empire Exhibition of 1924, I have the honour to submit for the information of Government a report of the steps already taken in the matter.

I have been in correspondence with the Exhibition Commissioner in regard to the particular area allotted to us so that a suitable plan may be prepared to fit it up so as to display our products most effectively but as he has himself not got a site plan he has not been able to supply me with the necessary information. I understand that a site plan of the whole Exhibition has just been received. The Exhibition Commissioner is also expected here. I shall settle the matter with him and as soon as I have obtained the necessary information in regard to the space to be allotted to us, I shall calculate the respective areas required for Government Exhibits and those that may be made available to the public and invite applications for the disposal of the latter.

In regard to the exhibits to be sent I propose to follow the principle that the articles to be selected should be such as would either afford an idea of the progress made in the various arts - -

P. T. O.

practised in the State which produce articles likely to attract foreign buyers or form the objects of direct trade or will tend to promote commerce with the State in any form. For instance, in the case of agricultural products the exhibits will be confined to commodities in which there is direct trade such as coffee, cardamoms oil seeds, silk, cotton, etc. The Director of Agriculture thought that as the space was limited there would be no use in exhibiting any of our agricultural products, but steps are being taken to secure exhibits of ~~such~~ the kind I have referred commodities. A grant of Rs. 5,000/= has been placed with the Forest Department to prepare a complete collection of Mysore timbers suitable for panels, high class furniture etc., and some specimens are also being prepared in the Arts Workshop. The Geological Department has undertaken to make a complete collection of Mysore Ores and minerals and articles that may be manufactured from them. In regard to industrial concerns belonging to Government such as the Bhadravati Iron Works, the Sandal Oil Factory, the Soap Factory, Silk Filature and Weaving Factory etc., arrangements are being made to obtain suitable exhibits and some of the important private manufacturing concerns in the State have been induced to promise suitable exhibits.

The most important part of our exhibits will be our artistic products such as sandalwood and ivory carving , brass work, lacquer-ware work etc. Arrangements have been made to select new designs and prepare articles so as to bring out the best features of Mysore Arts. These articles are either prepared in the Art Workshops and the Chamarajendra Technical Institute or with the help of the best workmen to be found in the State to whom small advances are given.

The arrangements for collecting the exhibits are now more or less on a working basis.

I may say a word in the matter I took that Committee In this connection some of the Local Governments have appointed to co-operate with the Directors of Industries in the selection of exhibits etc., and it may be desirable to organise a similar -

X committee

Committee here. These Committees are purely advisory as it is not possible to vest any executive responsibility in a committee and a single officer should be made responsible for all the arrangements.

I beg to recommend that an Advisory Committee consisting of the Director of Industries and Commerce as Chairman, the Director of Agriculture, the Superintendent of Sericulture, the Director of Mines and Geology, the Conservator of Forests, the Economic Botanist, the Chairman of the Chamber of Commerce and another representative of the Chamber, one Member of the - - Legislative Council and 3 other persons representing the principal industries and other commercial interest in the State be constitut -ed. This Committee will advise the Director in regard to the arrangements to be made for the collection of exhibits, conces- sions to be offered to attract exhibits, the selection of - - exhibits, the utilisation of the space allotted and the arrange- ment and display of exhibits.

I have the honour to be,

Sir,

Your most obedient servant,

DIRECTOR.
